

AXIO AXIO PRO

ENGINEERED TO SHOOT BETTER.
DESIGNED TO MATTER.

Pictured: the AXIO PRO

BUILT FOR CONTROL, RELIABILITY, AND CONFIDENCE SHADOW SYSTEMS AXIO PLATFORM

AXIO is a first-principles striker-fired handgun designed without compromise – starting with mass-distribution slide dynamics and trigger geometry, and ignoring any influence of legacy dimensions or cosmetic trends. No gimmicks. No shortcuts. Just engineering and build quality that push this category of firearm as far as it can go. Offered in AXIO and AXIO Pro trim levels, the platform is also available in a 4.4-inch configuration for shooters who prefer a longer sight radius and increased controllability.

At its core is a heavy-duty, precision-machined steel chassis that places mass exactly where it belongs, delivering exceptional balance and a precise slide-to-frame fit. This architecture defines how the pistol shoots, how it returns to target, and how confidently it runs under real-world use.

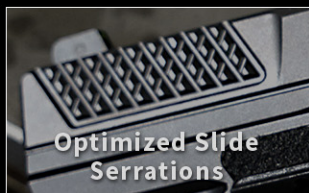

Overstroke Slide System

Octagonal Barrel

Top-of-Slide Anti-Glare Serration

Optimized Slide Serrations

Optic-ready slide

Patent-pending, crisp, lightweight trigger

AXIO + AXIO PRO KEY FEATURES

- **All-Steel Chassis Design**
Clean-sheet pistol architecture focused on shootability and control
- **AXIO Features**
Polymer grip panels and magwell and 4lb trigger
- **AXIO PRO Features**
Refinements including performance 2.5lb trigger, metal grip panels and magwell, and more.
- **Overstroke Slide System**
Increased slide travel/dwell time/smooth recoil
- **Octagon Barrel**
Multi-faceted geometry balances strength/weight
- **Refined Grip Geometry**
Natural indexing for improved control & repeatable presentation
- **Interchangeable Grip Texture & Shape**
x
- **Optimized Slide Serrations**
Confident manipulation from multiple angles
- **Top-of-Slide Anti-Glare Serration**
Reduces glare and aids sight tracking at speed
- **Next-Gen Trigger**
Crisp and light, adjustable weight

An all-new pistol platform from Shadow.
Designed without compromise. Control you can feel.

BUILT WITHOUT COMPROMISE

The AXIO platform houses Shadow Systems' new patent-pending trigger system, with pull characteristics tuned by trim level. AXIO models feature a refined, duty-appropriate trigger, while AXIO Pro models incorporate an enhanced performance trigger, both engineered to remain fully drop-safe and suitable for duty or everyday carry.

Recoil control is further enhanced by the Overstroke Slide System and octagonal barrel, which work in concert with purpose-built frame geometry to reduce impulse and produce a flatter, more controllable shot-to-shot experience.

Modular frame control surfaces allow users to tailor texture, material, and weight to individual preference, while a low-profile slide release minimizes interference without sacrificing positive operation.

Together, these elements create a pistol that feels deliberate, planted, and confidence-inspiring — a platform designed around the undeniable axioms of mass, geometry, recoil and control.

AXIO PRO*

Starting at \$1999 (AXIO) \$2249 (PRO)

9mm, Black Frame, Overstroke Slide Black, Octagon Unthreaded Barrel with premium finishes and refinements

*AXIO PRO comes with metal magwell and grip panels

*Available as AXIO (not pictured) with polymer magwell and grip panels.

AXIO 4.4 PRO*

Starting at \$1999 (AXIO) \$2249 (PRO)

9mm, Black Frame, Overstroke Slide Black, Octagon Unthreaded 4.4" Barrel and Premium Finishes and Refinements

*AXIO 4.4 PRO comes with metal magwell and grip panels

*Available as AXIO 4.4 (not pictured) with polymer magwell and grip panels.
